SOMETHING FOR EVERYONE

Provided Supplies:

- Doormat
- Paint (exterior acrylic house paint)
- Paint Brush
- Stencils

Other Supplies:

- Scissors/Xacto knife
- Tape
- Ruler (optional)

Instructions:

1. Decide which stencil you'd like to use. The one with text only is much easier than the one featuring the helmet.
2. Using scissors or an Xacto knife, carefully cut away the black portion of your stencil.
3. Center your stencil on the doormat and secure with tape.
4. Using your paint brush, apply a very small amount of paint ("drybrushing") to the areas of the doormat exposed by the stencil.
5. Remove the stencil.
6. Apply as many coats of paint to your design until you reach your desired effect.
7. Allow paint to dry completely before using the doormat.
