Keller PD Bike Registration Program

Today, the number of bicycles in use in the United States exceeds 120 million. The theft rate for all bicycles owned is approximately 5.5%, which means there are approximately 5,500,000 stolen annually or 15,068 stolen daily. Using a low average cost of a bicycle at \$100, the national cost to consumers

who have lost or who have had their bicycle stolen is over \$550,000,000 annually. Only 4.1 million are recovered by Law Enforcement Agencies. Of those recovered, only 2 to 5% are returned to the lawful owner.

You may ask why the return rate is so low...the reason is the owners can not give the police the brand name, model, and serial number of their bicycles; therefore, the stolen bicycle cannot be entered into the national computer as stolen. If bicycle owners were to write down this information, the return rate would substantially increase. The Keller Police Department recognizes the ongoing problem of bicycle thefts. We have established this bicycle registration program to assist investigators with returning stolen or lost bikes to their rightful owners.

How Does the Program Work?

First: Complete both copies (front and back) of the registration form on the right. Keep the top copy in a safe place where you can easily get to it in a case of an emergency. Using a pair of scissors, cut off the bottom copy and mail to or drop off at the Keller Police Department, 330 Rufe Snow Drive, Keller, Texas 76248

Second: Place the registration sticker on the bicycle frame below the seat facing toward the handlebars or on the middle of the handlebars facing up. The sticker should be placed where it can be readily easily seen, thus creating a deterrent effect.

Third: In the event of bicycle loss, contact the police department to file a report. Have your copy of the registration form available. If you are unable to find your copy, the police department will look up your registration and get the brand name, model and serial number off our copy. A police report will be filed and your bicycle will be entered into the national computer data base as a stolen bicycle.

Remember:

Always wear a helmet.

Use proper lights and reflectors.

Follow state safety laws.
